

let's talk trash

forum on solutions to pollution in the Los Angeles River

Presented by Mayor Bob Foster, Vice Mayor Bonnie Lowenthal,
Councilmember Suja Lowenthal, and Councilmember Gary DeLong

Pollution in the Los Angeles River is a significant problem affecting the water quality of our ocean, threatening our marine animals, and degrading our marine habitat. This public forum is designed to encourage an informed public dialogue about the potential solutions to protect our City's beaches, marina and harbor affected by the Los Angeles River.

Topics to be discussed include: current Long Beach efforts, upstream source pollution, stormwater management, TMDL, trash and chemical pollutants, funding and implementation, and much more.

The distinguished and expert panelists include:

- James Alamillo, Heal the Bay
- Colonel Thomas Magness, Army Corps of Engineers
- Mark Pestrella, LA County Public Works
- Belinda Faustinos, SG & Lower LA Rivers and Mountains Conservancy
- Tom Leary, LB Stormwater Management
- Paula Daniels, LA City Public Works
- Tracy Egoscue, LA Regional Water Quality Control Board
- Nancy Steele, LA & SG Rivers Watershed Council
